

Since our restricted visitation policy went into effect earlier this week, we have been working on ways to ensure that Woodlands Senior Living residents and their family/friends are still able to communicate and interact with one another. We are pleased to announce that we have now implemented a **Video Visit** system through *Skype*.

Each Woodlands Senior Living community has their own exclusive *Skype* account and is now scheduling **Video Visits**. To schedule your visit, please contact the designated person at the respective community below. The community contact will be able to provide instructions and *Skype* account specifics.
